LOS ANGELES, March 28,—Interest in the charges made against William S. Hart, "two-gun" hero of the movies, by a Boston school teacher, said to be Miss Elizabeth MacCauley, that he is the father of her four-year-old boy, centered today around the "enigma fund" of \$50 per month for the child, until it had reached its majority.

Who made the provision no one cems to know. However, the amount is now being paid and it was learned today that Miss Mac-Cauley, who says she is the child's mother, came to Los Angeles to arrange such a guarantee and then returned to Boston.

The actor denies the charge emwhatically and save he knows nothing about the fund for the boy and that if the documents are produced they will not bear his signature. Friends close to Hart in the motion plefure industry explained today that in order to avoid undesired publicity in the matter, some one possibly made the arrangement. Mrs. Winifred Westover Hart the actor's estranged wife, today

DINEEL WORK IN PROCEED SOON

City Engineer Says Cutting Through Only Awaits the Assessment Filing.

The cutting through of East Ewelith street for three blocks east of Twenty-fourth avenue to conest with the continuation of East Twelfth was definitely promised today at the city council session by lelegation from the Chamber of Commerce and civic clubs.

The delegation asked definite action for the project, which has been under consideration since Harmon said the assessment roll for the district probably would be filed May 15 and verified within the 60 days required by law.

"We can start work fifteen min-ites after the 60 days expire," said Harmon. "There is no reason why the work should not be done this year."

The ordinance of intention was adopted October 15, 1920, for this work. The matter went into the courts in March, 1922, and condemnation judgments were won in July, 1922. The assessments must now he filed and then all is ready for the actual street-laying, according to street officials, opening a new main highway to East Oak-

The city council today adopted a resolution calling the primary election for April 17, naming the andidates and seignating election ifficers and precincts.

The "rooming house ordinance" was amended by request of Commissioner Frank Colbourn. At present, those seeking the transfer of a rooming house license must appear before the chief of police for approval. Colbourn asserted that many persons objected to this police inspection, especially the many legitimate persons in the rooming-house business. The proposed amendment eliminates the police regulation of transfers. Otherwise the ordinance is un-

7 Arrested; Party 'Wild,' Is Charge

ALAMEIIA, Morch 28 -- Arrested in a police raid last night at 2306 Blanding avenue, seven participants of an alleged "wild party," three of whom are women, spent the night in the city prison and were arraigned in police court today on charges of disturbing the peace and vagrancy.

Those taken into custody were

Mrs. Ida Kingsbury, 31; Mrs. W. Spencer, 30; Mrs. W. Ferry, 32; Harry Cebrlan, 38; Lawrence Bor-leneo, 33; Herbert Edscron, 24, and Ben Ferns, 46. The women face charges of vagrancy, while the men have been charged with disturbing the peace.

The raid was made by Police Chief William Wannith and Officer A. Peterson after residents in the neighborhood of the place complained that the merrymakers were creating a disturbance.

Plans for the Ponce de Leon celebration are unique and essentially a part of St. Augustine, for the program is designed to portray famous historical happenings of which the city has been the center during the centuries gone.

It was near St Augustine, historians declare, that Juan Ponce

de Leon, seeking the fountain of eternal youth, stepped upon the shores of Fiorida on Easter Sun-day, 1513. Flowers bloomed, birds sang and it was in truth a Pascus Florida, or Flowery Easter. E. C. Lyon Speaks

Legion Told Spring Drive by New Alliance Matter of For Weeks

BERKELEY, March 28.-A new war combination of Russians and Germans was declared to be inevitable before many weeks by Lieutenant-Commander Roland Higgs, U. S. N., in speaking at last night's meeting of Berkeley post. American Legion, held in Stiles hall. Lieutenant Riggs declared that Russia was preparing for a great drive this spring and that Germany would undoubtelly unite with the Russians because of eco-nomic conditions.

Riggs was an attache in Europe during the war and in his capacity gave almost his full time in studying economic conditions and the Lect on this country. His address last night was on his observations gained while in government work overseas, which was carried on wen after the armistice was signed. That economically France is wrong in its forced invasion of the Ruhr was the assertion of the naval officer.

According to Lieutenant Riggs Europe today is setting an exam-ple of "taking what you want." He said that almost every country is striving for something either through petty jealousy, stupidity, coercion or some other means. The Balkan and Turkish troubles were

set forth as examples.

The speaker then discussed the plans of conquest of the Russians, which he claimed to have received from an authoritative source. He declared the relation between Russia and Germany much closer than the people of the United States generally believed.

These Girls too III to Attend School

AT no age does a young girl need greater care than from the time she reaches the age of twelve years until womanhood is established. Many a woman has suffered years of misery because as a girl she has been allowed to sit around with wet feet, lift heavy articles, overwork and overstudy. In all such

cases ayura D. Trabitation Togetable Compound should be given as it is especially adapted for such conditions. It is a root and herb medicine, contains nothing harmful and may be taken in perfect safety by any school girl.

This Mother's Letter and Daughter's Photograph of Interest to Every American Mother

NORTH BALTIMORE, OHIO.—"My fourteen-year-old daughter took Lydia E. Pinkham's Vegetable Compound every month for weakness. One of her classmates in school who had the same trouble told her about it. She said: 'My mother makes me take Lydia E. Pinkham's Vegetable Compound.' So that day she came home and told me and we got some the next day. She took three bottles of it and never has to stay home from school now from sickness. She is strong and well. I am sure it any-mother writes to me I will be glad to answer her letter."—
Mrs. VINCHER, Boy 61 North Editimate Ohio. Mrs. VLIEGHER, Box 61, North Baltimore, Ohio.

Another Mother Tells What It Did for Her Daughter

DANDRIDGE, TENN.—"My daughter was not able to go to school for almost a year because of pains in her side and other troubles girls often have. I was just studying one day what I could give her that would help her when I thought of Lydia E. Pinkham's Vegetable Compound, and decided I would get it for her. Since taking it she has gained to normal weight and goes to school all the time."—Mrs. George Hinchet, Dandridge, Tenn.

(Author of "MASTER SELLING")

Mr. Parker achieved National Prestige because of a remarkable sales record made prior to entering the American Lecture Field. He led in individual production, for four (4) successive years, the entire Inter-national Sales Organization of the

Alexander Hamilton Institute of New York (Mr. Parker's Former Connection)

Herproduced the largest volume of personal sales results ever obtained by any one individual representative in the history of what is known as the "Peerless Sales Organization of America."

The Canadian Manager of a world-wide organization, commenting on Mr. Parker's work in Toronto during his recent national lecture tour, says:

"Shirley Parker gave everyone a great treat. We sat and watched him develop his method of appronch, the superh way in which he handled a presentation, his ability to anticipate all objections and forestall them, coupled with his keen judgment at all times in handling a difficult situation. We could see why Shirley Parker is a Master Salasman. Mercover, the ideas that he brought home to us were things that we could all adapt and weave into our own sales activities."

The pre-eminant standing of Mr. Parker in the field of American Salesmanship, combined with the acquired ability of dynamic expression, assures salesmen in all phases of the field of direct selling as well as Sales Executives and you who are interested in selling yourself, your services or your ideas-practical-usable methods and plans which will crystallize into immediate returns in the form of broader vision, stimulated desire and increased earning capacity.

Just think what youve been missing MANY people deny themselves the comfort of a hot drink with meals, because they find coffee and tea detrimental to health. For many, the drug element in coffee and tea irritates

the nerves, retards digestion and often prevents natural, restful sleep.

If this fits your case, try Postum. This pure cereal beverage supplies all the pleasure and satisfaction that a hot mealtime drink can giveinvigorating warmth, fine aroma and delicious flavor. And you can enjoy it in the full assurance that it cannot harm health.

SACRAMENTO March 28. - Dr. G. H. Douglas, assemblyman from Crescent City, Del Norte county, representing the first assembly district, dropped dead in a drug store late yesterday. Douglas was drinking a glass of water when he fell from a stool to the floor. Friends rushed to him and found him life.

Relatives of Dr. Douglas said he suffered from attacks of asthma and frequently drank hot water to obtain relief. They said he had probably been overcome by one of these attacks.

Dr. Douglas had left his seat in the assembly only a few minutes before, where he had taken an active part in the discussions on the state budget. His seatmates said he showed no signs of illness during the afternoon.

Dr. Douglas was 60 years old, and was serving his first term in the legislature. He was graduated from the Rush medical college in Chicago and came West several years ago. After living at Fort Bidwell, Modoc county, several months, he went to Portland, Oregon, where he practiced medicine for some time. During the World War he served as a specialist in an Eastern army hospital.

He moved to Crescent City about four years ago and established a practice there.
Dr. Douglas is survived by his

widow, Mrs. Anna R. Douglas, two sons, Edwin Douglas of Chicago, and Donald, eight years old, and a brother, N. B. Douglas of Oakland. Dr. Douglas had personally interviewed many members of the roads and highways committee, of which he was chairman, during the day. He had urged their attendance last night. Shortly after the dinner hour committee members began to gather and some of them only learned of the chairman's death as they took their

U. C. Regent Tenure Change Is Argued

TRIBUNE BUREAU, SARA MENTO, March 28 .- Two heerings of interest to the state in general and of particular importance to Alameda county, were held last night in the assembly committees on constitutional amendments and public utilities respectively. Pursuit of the real or phantom millions occupied the legislators during the larger part of the three hour hearing in which one of the most active examiners of witnesses was Assemblyman G. H. Douglas, who dropped dead in the street near the capitol after leaving the assembly chamber. Dr. Douglas had told Seavey that

he resented the remarks of the latter at Testerday's session. "It was a wonderful political talk, considering you were invited to give only facts and figures," Douglas had said. "I think it was powerful introduction of yourself

as a candidate for nomination for governor.' Seavey laughingly responded that the question of who is to be the next governor "is a serious one." It was Dr. Douglas who at the close of today's hearing suggested that the budget matter be disposed of as quickly as possible.

by Superintendent of Schools Fred Hunter of Oakland, showing that thousands of pupils who use the street cars either occasionally, or not at all, would do so if half-fares were allowed, and that the street car companies would benefit. She also read a resolution of the Oakland city council, urging the legislature to pass the bill. Mrs. Saylor point-ed out that the company allows half-fares for Alameda and Richmond and other Eastbay communities, but not for Oakland and Berkeley. Other cities mentioned by Mrs. Saylor as enjoying half-fares were San Jose, San Bernardino, Sacra-mento, Stockton, Long Beach, Los Angeles, San Francisco and

In replying to Mrs. Sayior and City Attorney Gray, Dunne declared that the cities of Alameda and Richmond are applying the half-rate fare for school children by ordinance or by franchise. He also diclared that a hardship is worked on the street railroads since they have to transport the children in the centers referred to by Mrs. Saylor at less than cost.

YOUTHFUL STOCK ANYER FREED OF CHECK CHARGES

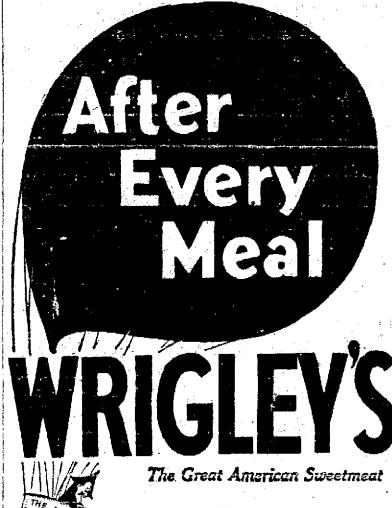

Cash Produced to Take Up Paper and \$1000 Cleaned Up On Yolo Deal.

WOODLAND, March 28.-Harold W. Huston, Santa Clara county youth, arrested here a few months ago on a charge of issuing bogus checks in payment for two carloads of stock, purchased in Woodland, and who was released from jail a few weeks ago, jumped into the limelight Saturday again when he purchased 47 cows and 11 calves from seven different Yolo county stock men and paid out \$4000 in checks, which it was found were worthless at the time of issuance. Huston was nailed before District Attorney George T. Kern and explained that he was operating legitimately in that as soon as he obtained his bill of lading for the shipment of the stock, money was rancisco to meet all drafts against him for the purchase price of the stock. The local men were not satisfied with the transaction, whereupon Huston surprised both the authorities and stockmen by producing cash to pay for their stock. He took possession of the stock Monday and turned it over nside of an hour after delivery to nim, cleaning up \$1000 profit on the deal. Local merchants at first believed

the youngster not responsible for his acts, basing their belief on the fact that he paid as high as \$110 for common milch cows. They reversed themselves a few hours later and called him keen and shrewd when he produced ample buyers to take the stock at \$150 and upwards a head. Huston redeemed himself throughout and now has the stockmen with cattle for market looking him up.

Summary of Spooner Report Given Out; Leader's Acts Indorsed.

The Central Labor Council or Alameda County has prepared an official resume of the report made by Secretary William A. Spooner concerning the action of the sen-ate committee investigating the defeat of the Water and Power Act, insofar as the activities of that committee related to himself. The resume follows:

The Central Labor Council of Oakland went on record last Monday night as strongly resenting what was described as an attempt on the part of the senate investigating committee to besmirch organized labor of Alameda county during the probe into the defeat with them in the matter of printof the "Water and Power Act."

This action was taken at a special meeting called for the purpose of hearing a report by Secretary William A. Spooner regarding what occurred when he and Stanton W. Love, editor of the Union Labor Record were before the investigating committee.

LABOR MEN UPHELD. In endorsing the report submitted, the council expressed confi-

dence in Spooner and Lore and held that these officials had completely defeated the efforts made by the proponents of the "Water and Power Act" to discredit them. The council also expressed indig-

nation over newspaper misrepresentation when it was shown that the \$139.40 spent by the Alameda County Political Federation of Labor for political purposes was distorted in one Oakland paper to read \$3800.

The report submitted by Secretary Spooner questioned the good faith of the legislative investigating committee and set forth the opinion that the investigation was instigated by vindictive politicians, disgruntled by their defeat in the water and power fight, and bent on punishing their opponents.

Spooner declared that he and Lore were "put in the pillory for their refusal to answer the whistle of a millionaire banker." Rudolph Spreckels. He declared also that he was "questioned and cross-ques tioned like a criminal charged with murder."

When asked by the investigators to explain the refusal of the Central Labor Council and the Political Federation of Labor to endorse that labor delegates were turned the girl to the stairs. against the bill by the arguments of E. P. E. Troy, public-ownership advocate, who addressed the Central Council, and by the contemutuous refusal of Rudolph Sprecktuous refusal of Rudolph Spreck- basement window to get at the els to debate the question with blaze, the three were huddled in Troy when formally invited by the Central Council.

Spooner averred that although carried to the fresh air. Damage he told the investigating committee to the building was slight. over and over again that the Political Federation of Labor had no source outside of the labor movement, his inquisitors continued to ask questions which cast odium upon both himself and the organi-

zations he represented. The committee, according to Spooner's report, seemed to take for granted that each citizen of the 600,000 who voted against the Power and Water Act, was either a fool or a knave.

PROSPERITY GIVING WORK
TO ALL IDLE MEA.

"Prosperity is giving employment
to nearly all applicants; for wherea!
the demand for labor usually de-

creases in both December and Jan-uary with the passing of the autumn boom—this time it showed a big increase in December and a small further gain in January. Railroad traffic, too, is breaking records; yet stock prices having climbed so well up to optimistic notions of values, are not rising aggressively.

"Industrial expansion is calling for so much working capital as to either draw funds out of the bond market, or else prevent them from flowing into it. Hence bonds are heavy. Usually bond and stock prices go together, moving in the ratio of about 1 to 3; and this they did during the 1921-22 rise and the November break. But in the Janu-ary rise bonds went up only a fraction as much as they should; since the middle of February they sold off twice as much as usual for this

rise.

"How long investment stocks may be held without fear of serious depreciation depends upon trade and production. It is the rule of experi-ence that such stocks are safe even on a high price plateau until trade

season, and now they are showing a tendency to sag even when stocks

We summarize as follows from a letter from Mr. Alfred L. Meyerstein, President of the Company:

History and Business

The Mchawk Oil Company, a California corporation, has acquired by purchase all of the properties previously owned by the Coalinga Mohawk Oil Company and the Continental Refluing Company. Both of these properties have been successfully operated for some years past under the direction of Mr. Alfred L. Meyerstein, who will retain the presidency of the new corporation.

The Company or its predecessors have been actively engaged for many years in the production of critic oil from their fee simple owned holdings of 160 according the wellknown Coalinga, California, field, and in the efining of their own and independently purchased oil at their modern, efficiently operated refinery in the same territory. The Mohawk Oil Company also owns six leases in the Santa Fe field, Los Angeles County, California, from which they are receiving net profits of approximately \$50,000 monthly from two producing wells.

Earnings

The combined Coalinga Mohawk Cil properties and the Continental Refining Company for the four-year period ending December 31, 1922, show net profits averaging \$174 000 per annum, or approximately five times the interest requirements on this issue. The revenue of approximately \$50,000 monthly received from present production from two completed wells on their Santa Fe leases is not included in the above statement. Earnings from the Coalinga properties could be substantially increased if the Company were to change their present policy of conserving the oil resources of their Coalings holdings now producing 20,600 barrels monthly. The purchase of property and the construction of the additional refinery at Santa Fe Springs as below referred to should materially increase the Company's profits in the future.

l'urpose of issue.

The proceeds of this issue, as outlined to us by the Company, will be used to acquire real estate in the vicinity of the Santa Fe Springs field and the erecting thereon of a refinery for the production of gasoline and other crude oil products; to acquire real estate and construct thereon disibuting stations in the populous San Joannia Valley, and for general corporate purposes.

Security

These bonds will be a first mortgage on the below described properties, conservatively appraised at \$1,498,000, a valuation considered by the corporation officials to be substantially under the present market value.

.1. 160 acres of fee simple owned proven oil lands in Section 12, Township 20 South, Range 15 East, Mount Diablo -Base and Meridian, Fresno County, California, producing approximately 20,000 barrels per month and conservatively appraised by Mr. Walter Stalder, well-known geologist, at

2. Modern efficient refinery, located on the Southern Pacific Railroad approximately one mile from the City of Coalinga, California, together with twenty-five miles of pipe line and storage tanks of 52.000-barrel capacity, conservatively valued at \$300.000. The cash investment therein substantially exceeds this valuation. The refinery is excellently maintained and efficiently operated, with a long history of continued profitable operation. It is at present refining approximately 30,000 barrels of crude oil per month. Maximum capacity is 50,900 barrels monthly.

3. Modern refinery to be erected in the Santa Fe Springs field, Los Angeles County, California, together with land and wholesale distributing stations to be erected thereon in the San Joaquin Valley, to be acquired through the pro-

in the San Joaquin Valley, to be acquired through the proceeds of this issue at an estimated cost of \$300,000.

As additional security, there will be assigned to the Trustee R's leases embracing 35 acres in the Sprite Fe Springs field. Los Angeles County, California, from which a production of approximately 50,000 barrels monthly he now being received. Irrespective of substantial values placed on these leases justified by the present monthly neterings exceeding \$50,000 and their future estimated normal production, as reported to us by Mr. Stalder, we regard the security directly mortgaged, including the Coalinga proven producing oil lands, refinery and equipment thereon, together with properties to be acquired, as ample geometry for the present issue of bonds.

Management

The Mohawk Oil Company will continue under the same

acquired. A definite finarcial and development program has been outlined which should substantially increase present earnings and assure continued improvement in the Company's cash position.

The sarnings are received from a staple commodity with a world-wide demand, and the Company is in a position to take advantage of any improvement in market, conditions due to their freedom from long term contracts. It is believed that the of industry is satering an era of normal expansion and continued profitable operation.

These bonds are offered if, when and as issued and subject to final permit by Honorable Commissioner of Corporations of the State of California. All of the legal proceedings incident to the incorporation of this Company and the creation of its funded debt have been taken under the supervision of Mr. Joseph C. Meyerstein, acting for the Mohawk Gil Company, and approved by Messra. Goodfellow, Eells, Moore & Orrick, on behalf of the purchasers.

culture.

The dry weather as a factor is reflected in the threatened reduction in the newly planted crop. Reperis from all the bay region rotato growing sections today were Cantler Mater. 72 205.

Reparis from all the bay region potato growing sections today were to the effect that the crop would be short and in some cases the ground was so dry as to preclude the probability of maturity of the tubers.

The dry weather is also betieved behind a quickened demand for have of all kinds within the past 24 hours. The hav market has been rather listless for several months but it is beginning to attract unusual attention from dairymen and owners of domestic animals generally. Alfalfa seems likely to be a market favorite within a short time.

IN ORDER TO FINANCE THE RAPID CROWTH OF THE CORPORATION the Duplex Percolator Company of Oakland, a local concern. is offering a limited amount of its capital stock to a few persons who can invest from \$50 to \$1000 each. The funds are to be used to finance the rapid growth of the corporation, which, owing to the great demand for its product, could not fill its orders for 1922.

WITHOUT ADVERTISING, during 1922 and before incorporating, the business cleared 16% on the capital invested. We believe that under our plan of expansion it will pay from 16% to 35%.

The facts concerning this company are worth investigate ing. They tell a story of growth that is a berometer. of what is to come, when it is considered that every office and home in Oakland is a lively prospect for a Duplex Percolator.

Oakland 1347.

The man whose mind is burdened with uncertainty and worry as to his family is in no condition to apply himself to his work. It causes a distinct loss in working efficiency that shows immediately in his earnings. The sooner such worries and uncertainties can be unloaded the better for all concerned.

The simplest way to do this is for him to get a home of his own and put his family on a settled basis.

If he is not able to pay for one at once, the definite saving and planning for one will measurably lighten his load and give him a cheerful mind for his

In all work, for yourself or others, another element besides your personal abilities is involved. That is your familiarity with all the conditions surroundings and affecting that work. With each change to new work or a new locality you have to learn these conditions all over again, and considerable time elapses before you can arrive at your full effectiveness and earning power.

The home owner, having found the work for which he is best fitted, steadily increases his proficiency. Naturally, as time goes on, his earning power also

The greater stability, dependability, and efficiency of the home owner are well recognized by employers. One Chicago bank by careful test, has found that the highest efficiency among its employees is shown by married men who own their own homes, and the next highest by those who are planning

to buy or build homes. They found that those who own no property are only 60% efficient. The latter of course earn less money.

One of the heaviest losses in modern industry is the "labor turnover," the constant moving of employees from one job to another. As the cost of hiring commonwearest and breaking in each new employee ranges from \$50.00 to \$75.00 and upward, the heavy loss is apparent. In some of the larger industries this loss amounts to hundreds of thousands of dollars each year. As a consequence of this condition, the home owner is given preference everywhere. Among the first questions asked of an applicant, by many employers, is "Do you own your own home?"

Candidate Makes False Step and Gets Four Years' Hard Labor

LONDON, March 28. - All sorts of adventurers seem to be able to get into British politics and even to secure elections to

Trebitsch Lincoln, a German won the affections of the Liberal party and represented a British constituency in the Commons just before the war. Horatio Bottomley, the most spectacular swindler England has produced for years. left the House of Commons last summer to serve a seven years' term. George Augustus Jennings was not so fortunate. He polled six thousand votes as an independent candidate in the London constituency of North Paddington at the recent election. He made a false step during the campaign, however, and recently he was sentenced to serve four years at hard

This amount he forfeits nings gave a check for this £150 on a London bank. Although he was not elected, he received many more than the requisite number of votes. In the regular course of events his check would have been returned to him and all would have been well. but an unforseen complication arose. Jennings had creditors who secured a court order restraining the election officers from returning the check, and established their claims to the money. When the check was sent to the bank by the officials it came back with the declaration that Jennings had no account there. It developed that he had given other bogus checks to various people to meet his campaign expenses.

After the jury had returned its vergict of guilty, the police told the judge the story of Jennings' life. Under the practice of the English courts such evidence cannot be introduced until the jury has passed upon the case, the idea being that testimeny of past misdeeds would prejudice the jury against a Jennings had served risoner. erms for similar financial misdeeds in other parts of the United Kingdom, and for some years he had been a shining light in the upper stratum of London crook

The Evening News thus de scribes the candidate: "He wor Perry is a young business man of an eye glass. He were the silk hat the morning coat, the white spats of the blameless life. He arrived in the constituency in a Rolls-Royce motor car, and with a Rolls-

doyce manner all his own. Before taking the field as an independent candidate Jennings had flirted with both the Lloyd-George and the Asquith wings of the Liberal party, and nearly per-suaded each of them to take him up as a candidate. Dartmooi prison is not likely to prove as congenial a club for Jennings as would the House of Commons.

RUSSIAN STARS OF FILM PAID ONLY IN FOOD

Among these will be "Igrok" and "The Idiot" of Dostojevsky, 'Rhadja Murat" and "Ivan the Terrible," by Tolstoy, and a few other historic pieces. The Russian film factories promise to stick exclusively or at least chiefly to the typical Russian dramatic or historical subjects. The Russian village and the peasant and probably Siberia and the deserts will always play the main role in the films. The film factories will stay away from any funny films, which are not in the character of the Russians.

The Russian film company producing these films, called "Russ," told the United Press that while it is now relatively easy to make a film in Russia with the possibility of importing the raw film, which Russia cannot make efficiently, the film "Pollykushka" was made under the greatest difficulties. ATHENS ATHLETIC CLUB ABANDONS FURNIER

Attempt Made at Last Night's Meeting to Force Approval of New Location Fails

The members of the Athens Athletic Club, at a turbulent meeting which more than filled the seating capacity of the Ivery ballroom of the Hotel Oakland last evening. abandoned its plan to build its proposed club building on the Southern Pacific company's site formerly approved by the club at Fourteenth and Franklin streets.

A determined effort was made by

a group which had perfected a secret organization at a meeting at Moose hall Sunday morning, to which only proponents of a certain site were admitted, to force approval of the project at Eighteenth and Telegraph avenue involving an expenditure of \$1,500,000, but following vigorous protests against railroading any particular scheme. the attempt was frustrated. During the heated discussion there were cries "state the price of the

Bruins Lose Final Game to Oakland Team

St. Mary's Outhits and Outplays Zamloch's Men at Berkeley.

By DOUG. MONTELL. UNIVERSITY OF CALIFORNIA

-March 28.—Taking things as they found them, with a crippled line-up, a pitcher acting as catcher and odds against them, the St. Mary's nine defeated California in the final game of the annual series yesterday afternoon at Berkeley by a score of 6 to 5.

The win virtually assured the local college of the Intercollegiate championship of the state, already holding a win over Stanford for the series and having Santa Clara as their only rival yet to meet.

The score yesterday should have been 6 to 2 or 3 at the most. Poer flelding on the part of both teams made scores possible where they should not have been. TWO MISJUDGED.

Two misjudged flies in left field, one bounded into the stands for a home run and another which went for a double, aided the Bears ma-terially, while failure to back up third base gave the Bruins another tally and a substitute umpire who called two men safe when a double play had been completed added further to the worries of Madigan. Minus Mueter and O'Rourke the Saints fell back on Sid Snow as 2 catcher, Sid caught back in 1919, but since then has not been behind the plate. Snow caught an excellent game, while Lindblum, on the mound, was in form, holding the Bears to eight hits.

Two runs scored for California in the first when Hermle singleu with one out. Gerlach filed out but Thompson singled to center and when Kardoza's throw got away from Paynter Hermle registered. Thompson countered when Douthit's fly fell safe for a double. St. Mary's tied it in the second when White walked and took third when O'Neill threw Harrington's attempted sacrifice wide to first. Kelly singled, scoring White and

White singled, seering Grant, advanced to second when Harrington was hit, went to third when Clearys messed up Kelly's tap and counted on Kardoza's single. Harrington failed to slide and was nipped at the plate. The Bears got two in the fifth.

Hermie led off with a single and Gerlach walked. Thompson's tap forced Gerlach at second Douthit hit to Harrington, who tagged Thompson at second and threw Douthit out at first. Here the umps ruled both safe and Hermle and Thompson registered. White drove out a home run to deep center for St. Mary's in the

GEORGE MURCHIO AND IRA COWELL TWIRL OAKS TO 5 TO 3 WIN

Local Tossers Play Errorless Ball, While Husky Hurlers Display Classy Pitching: Brubaker Gets Hit Giving Locals Lead in Third.

By EDDIE MURPHY.

William Killefer and his Chicago Cubs made their first spring appearance in Oakland and instead of treating Bill and his gang as guests from the East should be treated, Ivan Howard's Oaks stepped out and handed those Cubs a 5 to 3 beating, and the stock of the Oaks as 1923 pennant contenders went up many points. When we say Killefer and his Cubs, we mean that he did not introduce just the usual nine ballplayers that go to make a team. Killefer trotted out two ball clubs and one extra man, making a total of nineteen, so you can figure just how hard the leader of the Windy City team tried to beat the locals. Killefer was so anxions to win that ball game that he went out on the sidelines himself in the late innings and tried to get the goat of George Murchio, The TRIBUNE League graduate who hurled the last three innings for the Oaks.

A great four-run rally in the third inning, the gilt-edge fielding of the Oaks, who did not make a boot in the field, and the stellar pitching of Ira Colwell and George Murchio were the outstanding fea-tures for the Oakland fans to talk of. Barney Frieberg, third sacker for the Cubs, put on a real treat in fielding, and also in hitting. Barney made a couple of nice plays at third base and clicked out three hits, two doubles and a single in as many times at bat.

Murchio Allows Only One Scratch Bingle.

Murchio, fresh from the sandlots of The TRIBUNE League and rested none too well after pitching five innings last Sunday, was elected to go through the big acid test after Manager Ivan Howard was satisfied that Ira Colwell had enough work in six innings. Mur-chio stood the test like a big leaguer, as he allowed only one base hit and that was a slow roller to McGaffigan which Barret beat out in the seventh. He walked two batters. Chester Thomas was Mur-chio's batterymate and his presence behind the log came in quite handy On yesterday's showing Murchio just a out earned himself one time with one out and another with two out and each time he Adams-pulled through without scoring. Ira Colwell busted a double over Hack Miller's head and Baker stopped at third. This was a good place to walk Brubaker, with Wilie a lefthanded batter next at the Martin Dumovich throws with the wrong arm, so should have had the edge by walking Brubaker. But he failed to do his stuff, and Brubaker busted a liner over short to score Baker and Colwell and he took second on the throwin, and advanced to third when Dumovich

threw wild to second. Then Wille collected a hit for himself to score Brubaker, and Whie came all the way home when LaFayette, another lefthanded batter, got a hit to right, and Calligan let the ball get away from him. That was four runs and five hits for

Richard engaged himself in conversation with two or three than and women who were watching the youngster's game, and presently found himself applauding his son for a brilliant ace: But after per-haps five minutes he walked quite without volition, straight to Har-riet's neighbourhood, and she rose at once, introduced her new friend, and with a glance at her wrist, an-nounced that she must go.

She had put her arm about the boy to steady him; they began to discuss tanhis scores with enthuslasm. Richard drove the rest of the way home almost without speaking.

He planned to see Harriet again that evening, and left the club at eleven o'clock, after an incredibly dull game, with the definite hope that the youngsters would dance, or in some other way prolong the floor showed only the tempered member of the family came in, and Bottomley reported that the young persons had gone upstairs at about

Suddenly uprour broke out upstairs: there were thumping feet. shricks, wild laughter, and slamming doors. With a suddenly lightened heart Richard ran up the wide: square flight to the landing. His son, in palamas that were more or less visible beneath his stream-ing robe of Oriental silk, was piroughting about the upper hall with a siphon of soda water. Subdued giggles and smothered gasps indicated that the young ladies were somewhere near, in hiding. Young Hopper, under Ward's direction, was investigating doors and

Richard thought her maternal

"That is very kind of you, Nurse Jane, I'm sure," said Uncle Wiggily. "Grandpa Goosey will appreciate it. But haven't you made just

"That's enough!" cried Uncle Wiggily, "It sounds so good that I may eat it myself instead of taking it to Grandpa Goosey. But if you have it ready I'll start. I didn't know he was ill."

"I'll have a chocolate pie for you when you come back," said Nurse Jane as she gave Uncle Wiggily the one for Grandpa Goosey. It was shaped just like an apple pie, except that it was dark brown on top, instead of being light brown, as is the crust of most pies. The chocolate pie was in a strong

round tin pan, and Nurse Jane wrapped a paper about it to keep the pie from catching cold. Then with it under his pay Uncle Wiggily set out for Grandpa Goosey's

"OF course, if some witch were to say to some of those disgruntled mothers: 'Come now, you are plaing for fine clothes. "Perhaps it is because we always think of children in terms of affection instead of in dollars and cents, that mothers, who have to economize, feel that we childless women, who have plenty of money to spend, are more fortunate than they. "In old times, children may have 'just growed' like Tonsy," but that was before we ever heard of adenoids, and having teeth straightened, and taking out tonsils, or having permanent waves put in little girls' bobbed hair, or speccial tutors, or fancy dancing lesson, or any of the million and one things that parents feel that they have to do for their children now, and all of which cost money,

The College Girl. (No. 1676)

The college girl was catered to by the designer of this charming frock, the pattern for which cuts in sizes 14, 16, 18 and 20 years; only 31/2 yards of 40inch material is needed to make this dress in the medium size. Embroidery pattern, 15c extra.

As illustrated, the frock was made of Crepe de Chine. It could also be made with a printed Crepe de Chine for the pockets, cuffs and collar, and then you would be carrying out the latest idea of the handkerchief collar effect.

Or you could make this model of gingham with the collar of occopydia or hatiste of a contrast-

ing color. I his would make a very pretty frock and would be easier on your pocketbook; in fact, the cost of the completed garment would be only about

FIRPO OPPONENT YET TO BE NAMED; NEW YORK BOXING COMMISSION SECUES

PELKEY ANXIOUS TO ACQUIRE THE TITLE THAT TRACEY CLAIMS

New Zealand Heavyweight Appears Clever in the Gymnasium; Joe Lynch to Appear Again With Johnny Farr; Murphy Meets Eddie Macey

By BOB SHAND.

There will be a pair of heavyweight championships at stake when Ray Pelkey and Jim Tracey start swapping punches at the Auditorium tonight. Tracey is the champion of Australia and Pelkey is the champion of Bert McCloud's stable, and it is a toss-up which is the greater honor. Australia is a great hig place but the heavyweights they have been developing over there in recent years resemble products of Switzerland, and they have been punched as full of holes as the well-known Swiss Petrified Milk. However, if Pelkey clouts Tracey on the chin with sufficient force to bring out the birdies it won't do Ray a bit of harm to bill himself as the heavyweight champion of Australia, Bert McCloud's Stable, Eighth and Broadway, and way points.

Albert Lloyd into camp he has boxed most heavyweights with the exception of Harold Lloyd and Jim means to visit Los Angeles before going home. Right after grabbing off the title Jim took a flier with Jimmy Clabby and Jimmy took Jim Later Tom O'Malley took a couple of decisions over Tracey but probably because Clabby and O'Maliey did not part their hair according to Sydney specifications the title was not involved. Bill Brennan, Luis firpo. Tom Gibbons and several others have slipped the short end to Mr. Tracey since he reached our hospitable shores. The shores were very "hospitable" when Tom Gibbons finished with him but Jim didn't need an ambulance,

Meanwhile an investigation of his accounts is being made under the direction of Mrs. McCline and officers of the various insurance companies he represented and his real estate office in Fruitvale has been closed, according to office employees.

According to a statement issued at the CcCline home, at 4433 Pleasant Valley court, the missing man had been on the verge of a nervous collapse for the past six weeks because of business conditions. A statement made by a sister of Mrs. McCline, who was summoned this week, is as follows:
"We have no idea what could

have caused Mr. McCline to disappear in this fashion except that he made a mountain out of a molehill. There never has been a more

never been a rift. "t seems impossible that he would drop from sight in this fashion without leaving some word. t indicates beyond doubt that he was suffering from a mental col-lapse and did not know what he was doing. All that remains now is to hope for the best."

Need for Alameda Base Voiced by Congressmen

in time of war but its peacetime the Senate and the House to "check ommerce and its dignity among foreign countries are bound up with the necessity of building the great naval base that has been proposed for Alameda and San Francisco bay generally, according to speakers who yesterday addressed the luncheon at the Hotel Oakland, at which seven members of Congress and their wives were entertained by the directors and the members of the harbor development committee of the Chamber of Commerce. Members of the Congressional

party who spoke at the luncheon reiterated views they had expressed earlier in the day in interviews, wife in San Francisco last Satur- following their inspection of the naval base site on a special launch trip arranged by the Chamber of Commerce. According to these, the site is the best industrially, geographically, and from a military standpoint, and the hope was expressed that the government would soon see its way clear to establish the base at Alameda.

NOT LOCAL BATTLE.

"The proposal to build a naval base at Alameda is not a matter of taking something away from Mare Island or some other place," former Congressman William Kettner of San Diego declared. "It's our very life here on this coast and in this Nation. It isn't a battle of Oakland or San Francisco or other localities, but of the whole coast and of

thermore, an efficient fleet is the only way to keep our state department from being laughed at years of married life there has by the governments of foreign nations when it makes its just de-mands upon them, for otherwise those nations would know that our state department had nothing to back up its words with.

"But under present conditions our fleet is not efficient. This does not mean merely the Pacific fleet, for there is no such thing as a Pa McCline's realty and insurance cific fleet any more-Admiral Haloffice was at 1315 Fruitvale ave- stead told me today that three-nue. quarters of the entire United States yet the shore equipment needed for fleet of war vessels is practically no greater today that it was back in 1917, when he had only a few old pattleships on this coast. FIVE YARDS IN EAST.

"On the Atlantic coast, where only a quarter of the United States fleet is now located, there are five ig navy yards within a stretch of 400 miles. Out here, where we have three-quarters of the fleet, there are only two naval stations in 1000 miles of coast. With the danger of future wars existing almost entirely on this side of our continent, let us have the Pacific coast at least half as well pro-tected as the Atlantic!"

"We are not advocating anything told the visiting Congressmen. "You are here as our guests, and we are concerned only with your entertainment. But we feel it our duty at least to point out to you the situation that exists here wih respect to the proposed naval base.
"We have no land to sell in this
matter of a naval base. The land that has been offered as a site belongs to the city of Alameda, and that adjoining it is owned by the 2446 Dwight way, readily wrapped State of California, so there can be up the shoes. The stranger then no suspicion of mercenary motives tendered a \$5 check in payment on our part. Our hands are clean. Our only interest is the national defense. That is why the people throughout this region and in San Francisco have joined with us."

Alfred Cortot, the celebrated French pianist, chooses to be associated exclusively with these three great names.

The fact that Cortot plays only the STEINWAY piano, makes only VICTOR records, and creates rolls that are playable only on the Duo-ART reproducing piano, are facts that surely shed lustre on STEINWAY, VICTOR and DUO-ART.

Yet the public knows that these three names also shed lustre on Alfred Cortot. Cortot chooses them because of their greatness. They, in turn, choose Cortot because he, too, is great.
